

## WHAT MAKES CROSS CABINETS DIFFERENT FROM ALL THE OTHERS?

Serving the Chattanooga metro area for more than 25 years, Cross Cabinets has taken great pride in crafting fine custom cabinetry of exceptional quality and beauty.

Cross Cabinets has been built on customer loyalty and trust in our product. Over 90% of our business comes from customer referrals. When we commit to delivering a quality product, and a time line that is necessary for the project to be executed... we stand by our commitment.

Our team of skilled craftsmen provide great attention to detail to ensure a durable product that will adorn a home for years to come.

We guarantee our product. We will replace any broken hinge, door, drawer slide, and solve any issue that may arise. After one year, we will fix most items for a small charge. Our service is second to none.

Cross Cabinets is one of the few cabinet shops that continues to make an all wood cabinet. We stain the inside the same color as we stain the outside of each cabinet. Various door styles, wood species, finishes, and accessories are available to create a cabinet that is unique to each customer's personal style.

We use European hidden hinges, and quality slides and hardware as standards for all of our cabinetry.

Our design team works with contractors and home owners to derive a design to accommodate even the most discriminating customer.

## CHANGING POPULARITY OF KEY FUNCTIONS IN TODAY'S KITCHENS

As overall space decreases in homes of today, kitchens are assuming new functions. Residential architects recently performed a study which showed a growing popularity increase in the following areas:

- Recycling Centers 52%
- Pantry Space 47%
- Computer Work/Recharge Areas 43%
- Integration with Family Space 41%
- Adaptability/Universal Design 28%
- Double Islands 20%

# Surviving Kitchen Renovation

- ◆ **SET UP A MINI-KITCHEN:** Eating out not only gets old but can become expensive. In a corner of the Living Room or Dining Room stick a dorm fridge, toaster, microwave, and coffeemaker.
- ◆ **MAKE A LIST OF EVERY SINGLE ITEM IN YOUR KITCHEN:** Before having your kitchen plan drawn out make a list of all the items in your kitchen. This is a laborious task but so worth it. This will ensure that everything you own has a home.
- ◆ **LIGHTING CAN TRANSFORM A ROOM:** Lighting is so important in task areas like a kitchen. Splurge on lighting. Not only is proper lighting necessary it can add style and character to the space.
- ◆ **HIRING A GENERAL CONTRACTOR IS WORTH IT:** Save yourself the headache. When problems arise...and they will, it's best to have a person in charge with experience and knowledge to make the right decisions.
- ◆ **TINY DETAILS MAKE ALL THE DIFFERENCE:** Cool gadgets that make your life easier are worth while. Add food disposals, instant hot water, or a pot filler if it's something you've dreamed of having.
